DESCRIPTION

Ultra low friction, copper-free self-polishing antifouling based on pure hydrolyzable binder composition

PRINCIPAL CHARACTERISTICS

- Designed for ocean going vessel types and operations
- Ultra low friction properties due to copper-free composition and self-smoothing properties
- Extended idle day protection
- Ultra linear polishing rate and minimal leach layer build up that provides optimal antifouling performance
- Excellent aesthetics during service life of the vessel
- Complies with IMO Antifouling Systems Convention

COLOR AND GLOSS LEVEL

- Redbrown, brown
- Flat

Notes:

- Longer drying times may be necessary at higher DFT and under unfavorable atmospheric conditions
- Above table is a fair indication for normal application conditions. Please contact your PPG representative for data at much lower and higher DFT conditions

SAFETY PRECAUTIONS

- See Safety Data Sheet and product label for complete safety and precaution requirements
- This is a solvent-borne paint and care should be taken to avoid inhalation of spray mist or vapor, as well as contact between the wet paint and exposed skin or eyes
