

Technical Datasheet QA-1200_V

 QUICKLINE® Gunwash

Description	Quickline Gunwash, QA-1200 , is for cleaning of equipment used in the mixing and application process of <i>Quickline</i> solvent based products.
Products	QA-1200 <i>Quickline</i> Gunwash
Useage	Thoroughly clean the spraygun with <i>Quickline</i> Gunwash and dry with a clean cloth. It is recommended that the equipment is cleaned immediately after use to avoid the drying and formation of deposits that can be difficult to remove, and which could compromise the efficiency of the spraygun, or other contaminated equipment.
Mixing	Ready for use
Waste Disposal	<i>Quickline</i> Gunwash QA-1200 and subsequent waste created should be disposed of correctly and in accordance with local authority regulations.
VOC Information The EU limit value for this product (product category: IIB.a) in ready to use form is max. 850g/litre of VOC. The VOC content of this product in ready to use form is max. 850g/litre. Depending on the chosen mode of use, the actual ready to use VOC of this product may be lower than that specified by the EU Directive code.	

These products are for professional painting only, and are not to be used for purposes other than those specified. The information on this TDS is based on present scientific and technical knowledge, and it is the responsibility of the user to take all necessary steps in order to ensure the suitability of the product for the intended purpose.
