PPG DELTRON®NXT

Ultra Velocity Clearcoat

DELTRON® NXT[™] DC2000 is an ultra velocity, highquality clearcoat, specifically developed to enhance productivity in air-dry collision repair facilities.

DC2000 is designed for use on repairs of 1-3 panels. The product offers fast flash, polish and air dry times without sacrificing durability or appearance.

Features & Benefits

- Fast air dry
- Sand or buff in as little as 30 minutes after application

Compatible Surfaces

DC2000 may be applied over:

- Deltron (DBC) Basecoat
- Deltron NXT Basecoat
- ENVIROBASE[®] High Performance (EHP) Basecoat

Required Products

Hardener DCH2015

Reducers

DR220 Accelerated Reducer 70-85°F DT1575 Medium Thinner (65-77°F) DT1585 Slow Thinner (77-90°F) DT1595 Very Slow Thinner (95+°F)

Surface Preparation:

• Wash all surfaces to be painted with soap and water, then apply the appropriate ONECHOICE® or *Deltron NXT* cleaner. Ensure the substrate is thoroughly cleaned and dried both before and after application work.

- Wet sand with US 500-600 / European P800-P1200 grade paper or dry sand with US 400-500 / European P600-P800 grade paper.
- Wash off residue and dry thoroughly before recleaning with appropriate cleaner. The use of a SX1070 *OneChoice* tack rag is recommended.
- Refer to the Product Information Bulletin of the color system for its application, dry times, and blend recommendations
