

PPG SIGMARINE™ 48

Cost-effective and versatile above-water protection

Our general-purpose gloss finish is water- and weather-resistant, easy to use and simple to apply, making maintenance easier and more economical.

PPG SIGMARINE™ 48

Cost-effective and versatile above-water protection

Straight-forward application

When resources are limited and budgets are tight, PPG SIGMARINE 48 offers a protective, high-quality gloss finish that's easy to use and cost-efficient.

It's simple to apply, quick-drying and long-lasting. It performs well with a range of conventional primers, including PPG SIGMARINE 28, and there's no complex application process. It's quick drying, even at low temperatures. With these coatings, projects can be completed sooner to ensure costs are kept low. And because your assets are better protected for the future, it's economical for longer.

Designed with versatility in mind

PPG SIGMARINE 48 is the ideal solution for a variety of demands. It can be used on new builds, on maintenance when sailing, and applied in dry dock. It is perfectly suited to decks, deck fittings, interiors, superstructures and topsides.

Striking visual impact

It's important that protective paintwork not only works hard but looks great, too. The high-gloss PPG SIGMARINE 48 is available in an extensive range of colors through our color network centers, found in all key ports around the world.

You can select from our existing range, or use our advanced system to match and blend a specific color to suit your own standards or corporate livery. With high gloss retention, paintwork will look better for longer.

Independent approval

PPG SIGMARINE 48 has been certified by DNV as a paint system with low-flame spread in compliance with IMO Solas and Marine Equipment Directive (MED).

Features

- Water-and weather-resistant with good gloss retention
- Easy to use and simple to apply
- Quick drying
- Strong adhesive
- Suitable for a range of uses from new-build to maintenance projects, deck fittings to superstructures
