

Black Guide Coat

SXA1030

Aerosol

ONECHOICE® SXA1030 Black Guide Coat was developed to allow a layer of color to be applied to a primed surface that will help identify high and low spots in the surface when sanding.

Features & Benefits

- Packaged in aerosol cans
- Increased productivity
- Lower finishing costs

Compatible Surfaces

- All PPG branded primer surfacers

Note: Not compatible for use with ENVIROBASE® High Performance EPW115 Waterborne Speed Prime

Compatible Products

- All DELTRON® primer surfacers
- *Envirobase* High Performance solvent-borne primer surfacers except EPW115

Directions for Use:

Surface Preparation:

- Surface should be cleaned with appropriate PPG surface cleaner.

Mix Ratio:

- SXA1030 is Ready to Spray

Application:

- After primer surfacer has dried and before sanding, apply 1 light coat of SXA1030 Black Guide Coat over the entire area and allow to flash off.
- Sand the surface until all traces of the guide coat are removed.

Note: When finished spraying aerosol products, hold can upside down and spray until valve is cleared. This will prevent clogging of the internal valve.

Note:

When the material in the aerosol can is spent, turn can upside down and depress the nozzle until all propellant is exhausted. Place empty can or cans that are no longer to be used into properly labeled metal containers. The waste containers should be managed as a hazardous waste pursuant to local, state and federal regulations.
