

MULTI-PREP™

# SX103/SXA103

ONECHOICE® SX103 and SXA103 MULTI-PREP™ is a product developed for use as an anti-static agent, a plastic parts cleaning wipe, or as a cleaning agent for mold release. SX103 must be transferred to a hand-held spray bottle and SXA103 is packaged ready-to-use.

## Features & Benefits

- Ready for use
- Minimizes attraction of dust and dirt
- Reduces static electricity
- Produces consistent results
- Increased productivity
- Aerosol available

## Compatible Products

- SX103/SXA103 *Multi-Prep* are for use with all PPG systems.

## Direction For Use

### Application:

- SX103 *Multi-Prep* must be transferred to a hand-held spray bottle.
- SXA103 *Multi-Prep* is packaged ready for use.
- **As an anti-static agent:**
  - Using a spray gun, apply a mist coat of SX103 on the surface to be painted both before and after tacking.
  - Using the SXA103 aerosol can, apply a mist coat of SXA103 on the surface to be painted both before and after tacking.
  - This will help reduce static electricity on all treated surfaces, minimizing the attraction of dust & dirt.
  - Coverage is approximately one (1) quart per car.
- **As a cleaner for Plastics and Flexible parts:**
  - Saturate a clean white cloth with SX103/SXA103, wipe in one direction only, and immediately dry with a clean cloth.
  - Use SX103 before sanding in a hand-held spray bottle only.
  - Use SXA103 before and after sanding.

**NOTE:** Do not apply over painted or sensitive substrates such as fresh topcoats and/or primers as softening may occur.

**Can disposal:**  When the material in the aerosol can is spent, turn can upside down and depress the nozzle until all propellant is exhausted. Place empty can or cans that are no longer to be used into properly labeled metal containers. The waste containers should be managed as a hazardous waste pursuant to local, state and federal regulations.

**Important:**  Improper spray technique may result in a hazardous condition. Follow directions for respirator use. Wear eye and skin protection. Observe all applicable precautions.

**Technical Data:**

**Properties:**

<b>RTS Combinations:</b>	<b>SX103</b>	<b>SXA103</b>
Volume Ratio	As is	As is
Intended Use	Plastic Substrate Cleaner	Plastic Substrate Cleaner
VOC Content (g/L)	777	705
VOC Content (lbs./ US Gal.)	6.48	5.88
Density (g/L)	787	707
Density (lbs./ US Gal)	6.57	5.90

**Canadian National Rule**

Definition– Surface cleaner means a product used to prepare the surface of motor vehicles or mobile equipment by removing unwanted matter from the surface before applying a coating. It excludes products used for cleaning automotive refinishing equipment and hand-held spray bottle spot cleaners used to prepare surfaces prior to sanding.

**VOC Concentration Limits for Automotive Refinishing**

Non-Application  
(2) These Regulations do not apply in respect of automotive refinishing products set out in column 1 of the schedule that are (c) imported, offered for sale or sold in a non-refillable aerosol spray container or manufactured or imported to be packaged in that type of container.

**Important:**

Before opening the packages, be sure you understand the warning messages on the labels of all components, since the mixture will have the hazards of all of its parts. Improper spray technique may result in a hazardous condition. Follow spray equipment manufacturer’s instructions to prevent personal injury or fire. Follow directions for respirator use. Wear eye and skin protection. Observe all applicable precautions.

**See Safety Data Sheet and Labels for additional safety information and handling instructions.**
