

Sem-luer adapter, sem-needles and semflex-needles

Description

For precise dispensing applications of all types of viscous materials, liquids and pastes. Disposable stainless steel and flexible Teflon® needles fit all of the SEMKIT® packages and standard SEMCO® cartridges with the use of the sem-luer adapter.

All sizes have molded, colored hubs in international color codes. All needles are precision made with burr-free ends for micro applications. All needles are non-sterile and are for industrial use only.

Sem-needles and semflex-needles

Sem-needles

Disposable, rigid, stainless steel, blunt end dispensing needles fit onto all luer lock and luer slip syringes and the sem-luer adapter. All needles have molded international color coded hubs for easy identification of the specific gauge size. These needles are precision made with burr-free ends for micro applications. All needles are non-sterile and are for industrial use only.

semflex-needles

Disposable, flexible, blunt end Teflon® dispensing needles fit onto all luer lock and luer slip syringes and the sem-luer adapter. All have molded international color coded hubs for easy identification of specific gauge size. These flexible needles will not scratch or mark a surface upon contact. All needles are non-sterile and are for industrial use only.
